**NOTICE OF UNLICENSED OPERATION**

Case Number: EB-FIELDWR-14-00016219

Document Number: W201432920004

The Portland Office received a complaint that an unlicensed radio station was allegedly operating in Eugene, Oregon on the frequency 458.850 MHz. The complaint specified a construction site from which the operation was occurring. On June 23, 2014, agents inspected the transmitter which was installed in a delivery boom truck owned and operated by L&W Supply d/b/a Building Specialties in Eugene, Oregon. An on-off test verified that the transmitter was transmitting on the frequency 458.850 MHz. An agent interviewed a Branch Manager of L&W Supply who acknowledged the operation of the transmitters in three delivery boom trucks in Eugene, Oregon, and agreed to cease operations at that time because of the on-going interference. The Commission's records show that L&W Supply did not have a FCC license for operation on 458.850 MHz in Eugene, Oregon.

(See 47 U.S.C. §§ 401, 501, 503 and 510.)

**UNLICENSED OPERATION OF THIS RADIO STATION MUST BE DISCONTINUED IMMEDIATELY.**
